

SOFTWARE IMPLEMENTATION CONSULTANT

Zybertech Construction Software, an Alberta based company with representation in Calgary, Red Deer and Toronto is an Authorized Business Partner for Sage Timberline Office, and is Canada's the leading supplier of Residential Homebuilder software solutions.

As a result of continued expansion to our team, we are recruiting for the following position:

TIMBERLINE SOFTWARE IMPLEMENTATION CONSULTANT, Calgary Office

Reporting to the Director of Consulting Services, the successful candidate must be able to demonstrate the following:

- Ability to consult on new accounting software engagements, which will include: client requirements analysis, systems selection and system implementation.
- Ability to facilitate implementation meetings, and keep projects on schedule.
- Ability to provide client training on Timberline accounting software
- Strong computer skills, particularly using the Microsoft Office Suite (Word, Excel, PowerPoint, Project, Outlook).
- Strong database skills using Microsoft SQL or Microsoft Access
- Provide custom report designing for new and existing clients using either Timberline Report Designer or Crystal Reports.
- Ability to gather and organize complex information and compose materials for formal distribution.
- Strong time management and organizational skills, detail oriented with a positive attitude.
- The ability to multi-task in highly pressured situations.
- In depth knowledge of construction job cost accounting practices

Strong knowledge of payroll requirements for both Union and Non-Union companies.

We are searching for individuals who are naturally outgoing, and who possess excellent people skills. This position requires some travel.

Qualifications: Previous Timberline Accounting experience. Although a professional accounting designation is preferred, it is not required.

Please include salary expectations and references. *The interest of all applicants is appreciated, however only short-listed candidates will be contacted.*
